 [BET] Sues to Microsoft Internet Television. MSN and

By playing Commercials, the advertisements of
 Commercial television pays for the services.

BET Movie station a monthly fee and BET Pay Per View
 is self explanatory.

BET (Black Entertainment television) is not Black television
exclusive, but for a change from a Black perspective that we
 are all human beings and hue means of color. THERE is but
one race and that is the human race. THEREFORE, the
perspective is truth and that "God is in Reality."

And BET Educational Adult (Unrated) is not xxx Porn, but how to
sex and even nudity with the intent to promote love and not
perversion. How else will a virgin learn first.
