

New term

Zulary name after Princess Zula #17

THE Blue LAW & Currency Legitimation
Our Currency was Founded on Blue in Gold. To
make this money Legit, we must place into
Full effect the Blue LAW.

THE NAME of our currency will be Blue Dugh.
"I need some dugh to make some bread."
and bread is money.

* Our currency Blue Dugh will be backed by
Jones Mining, L.I.C. New York. Based on our
current valuation of diamonds, using high
power laser technology, we will cut a
piece of diamond the size of the value
of \$1,000 Trillion or \$1 zillion and place in
into the United Union Depository and cut it
into blocks of \$1 Billion per block. This will
back our currency at \$1 zillion

* Even if our current value of our total economic
trade system is \$200 Trillion our blue Dugh
will back our currency under the blue LAW
5x, meaning the blue Dugh is worth 5x
the U.S. Dollar after this balanced debt
and Full Forgiveness.

Then we will redefine our currency and how
currency valuation is accessed.

#1) THE Diamond #2) Natural Resources
#3) Productive Processes #4) Manpower and
Capabilities #5) Intellectual Properties and
demand.

This will allow realistic valuation throughout
