

THE ECONOMIC Stimulus Movements

#1) From: THE Public Transportation Billboard Explosion to Banking Policy. MAKE CITI Corp - City Bank, Chase and Wells Fargo the recipients of most of the Billboard Ad's. By Placing the logos of our banks in a Image Station "Citi Corp," on the right bottom section. Reduce television Ad's by 50% until we set the policy Passed by the FCC to put Internet T.V. on the market. Time Warner (any) affiliates of Time Warner to include CNN, TNT, TBS and any channel associated with the admitted Atheist T.E.M Turner sets no advertisement. He can name his price in Green Confederate dollars. Fuck Ted Turner.

#2) From Retail Establishment to York. A) THESE ARE our main concentration businesses, plus add more. I know of more already mentioned and Starbucks is major in our marijuana distribution system at Municipality level.

#3) From THE New York City move to New Jones Town Transport Systems, which can run down Vernon Blvd. This is our main first phase housing construction program to take place.

#4) You know my New Sitcom and Series ideas. But from Covert Op's D.O.D to THE British Invasion, try to interlink the two. THERE is a thin line between my military covert ops and the fight in the drug war. Create ~~Fit~~ Fictitious characters based on real life events. And from time to time information can be shared.

#5) From "All Alone - connected to the Nicki tour, this is where I add a few things. A) MJJ and kins Prince adds vocal tracks to the Saint the world Album, as well as the Queendom. kins Prince Masteries and Allicia V.V.T. B) Place "NOT on my Computer" on the Country charts. Country music is about story telling and IF Nalanda told the story about why I could not do a Country song that makes it Country. I think she should release it as a Dolly Parton duet. It sounds like Dolly.

#6) Meriah, please, please, please give Daddy a break and Sasha Law and Melicha had no idea but the movie and now. But right now I AM depending on Meriah and Rhanna. Ex: MAD music catalog is really worth more like \$20 Billion. THEY Sold the Copyrights without planning to pay royalties but now we are the royal family and selling publishing rights to mesul.

You cannot sell anything without copyright the copyright owner, you said
