There is reason and grounds for a RICO investigation in the state of Florida and in Highlands County. It is clear I experienced hate crimes for the duration of my stay here since 2009. And this hatred towards Jesus Christ, was withand for a reason. The reason they hated God was to steal everything I had, to include the most important people in the whole world to God, who is my children. And the reasons are many, but one word (Death) describes them all. They hated God, to cause death and the destruction of all of the world.

**Grounds for RICO Investigation:**

The Highlands County Police Reports – on Frank Paul Jones – The many false arrests, denial of counsel, forced incarcerations, kidnappings and more.

My VAMC Medical Records – The pattarn of Baker Act – one after another by Dr. Borden and the Local Law Enforcement.

The commencing of these hate crimes court request of 2011

The Postal Services denial of services and the stealing of my mail and P.O. Box 37, I have no access to and it was taken from me by order of Vicky Dunn, of the infamous Duyn Family, who had me Baker Act and later arrested, because she on court record stated, "I own the Post Office." And they arrested me in support of her.

Several Judges on record signing unlawful court orders against me.

The Tax Collect Denial of my rights to be tax exempt
