The Response:

It is simple, but the solution has a time sensitive beginning, but a long term processes. It begins with reallocation of monies and assets we recovered from drug operations, fraud scams, IRS fraud and so many acts of corruption against God and our nation. The recovery is in the process of being calculated and the lead account is Stephen Marco Wright, who will also re-write the tax codes of America. I predict a recovery in the area of about \$100 trillion plus.
