to prevent this epidemic. THE DEA being
the Government drug distribution arm, became
the lead agency to fight this fabricated
war. And he started moving large sums of
cocaine into the United States from South
America.

#4) He was later impeached and still after
over 40 years America is still doing what
he unlawfully executed and ignorance is not an
excuse. Millions of people was placed in
jails, institutions and death and today our
nation is flooded with counterfeit currency
with perhaps over 100,000,000 infected
with HIV as a result of drug related
immortality.

#5) Today the Confederate controlled states, the
same entity to fabricate the war on drugs
has taken control of the legal marijuana
markets under state legislation, meanwhile
the Confederate controlled Republicans
block every effort for federal legislation
to make it legal for all America.

THE SOLUTION

A) Destroy every state build Green house,
confiscate all the marijuana in all
distribution centers in all legalized
states and arrest all the distributors
and dealers under the same federal laws
that apply to the rest of the United
States. And have them argue the
constitutionality in their own defense.
