The United States Marijuana Legalization and Decriminalization under Martial Law

D.B.A. Jesus Christ – Rev. Frank Paul Jones - Messiah

Due to the state of our Nation, I pushed forward a budget, which will allow us to discuss our needs and do some type of accountability on our people. Many have falling along the way to emancipation. The budget will be presented by the new year under the Astrological calendar or on and about 21 March 2017. Until then we will run thing under Martial Law and capital is not major concern, but how it is use is.

We really do not know our causality rate, we do not even know who is dead or alive. So how can we honestly define our agenda fully? So I will push some essential requirements and allow my Board of Generals, and Staff, the Corporation, the Order of Zews, the Queendom of Jesus Paul Messiah, under the oversight of Jesus Christ, INC., the ability or luxury distribute and sell marijuana for both recreational and medical purposes no later than 1 January 2017.

1. Recreational Marijuana can be sold in Coffee shops but not where alcohol is consumed.
2. Medical Marijuana and THC/CBD can be sold in pharmaceutical stores and will be covered by all government sanctioned health insurances.
3. Nationwide distribution will be out of Washington D.C. To assure accountability.
4. International distribution comes out of Cuba and they will be provided offices in Miami.
5. The Exception Municipality where marijuana will be legal for statewide distribution is Orlando, Fl and Orange County, Florida & Highlands County is directly under God's Law and oversight. His Word is the law.
6. Production of marijuana in the United States will be selected based on resources and demand.
7. A person can have up to one pound of marijuana in their home. More will require a written request. For example, we are having a party on Friday and expect 150 guest.
8. Starbucks is in about 25,000 locations and will be the number one United Stated marijuana parlor.
9. The split is 10% God, 10% healthcare, 65% the Production Process, 5% Federal Governance, 5% State and 5% local governance.
10. Licensing will be determined by the members of the board I formed in my opening statements.
11. My General POA has the authority to sign this law in my behalf or it can be signed by Gen. Obama as he is over Governance Administration. I have the right to amend it if deemed necessary. But this law is to go into effect, as of 12:01 AM 1 January 2017.

Signed: Frank Paul Jones
