We know who is who is Britain. (The NAZI Party) We know Israel is the NAZI state. We know the Harry Potter mentality of the wizard of Gothic Oz DeBar. We know the NAZI Party out of Britain is traveling through Europe Search From bribes. We know how the enter a Nation to take control of high places. And we know the NAZI party is deeply entrenched in American Government based on all this corruption.

They say President Barack Obama did not follow his administrative policy, no money for prisoners. Yet America owes Iran even more. Yet we have millions of prisoners in American prisons and jails and I for one committed no crime. As to say, an American is above the law in an Islamic state (Arab country would be politically correct) so whenever an American gets arrested, they must be released without any restitution regardless. But Americans in America can be shot down like dogs and thrown in jails without a key? Ish: 56:1-12

They say 400,000 people we screwed in South America, with our latest Harry Potter Man Made Virus. Come up with \$2 Billion right now or else? What? Zika attacks Sweet Blood. Zika attacks Type O Bloodtype and I have AB+ Bloodtype. Therefore, no one of my children has O type Blood. So Zika does not concern me as the top priority. They say we members Jesus Christ, stopped Polio in its tracks by 1965. And this can be the next polio. But my child Katherine had Polio and she carried my Spirit child Janet into 1966. My children will not catch Zika. Ish: 8:12

In essence it is alright to extort me with manmade disease like in 2014 it was Ebola. But really, really had to pay restitution to a Friendly Nation whom I plan to arm with neutron warheads placed under covert oversight? Rev. 16: 17:1-5 Harry Potter Shit

Meanwhile, state after confederate state legalizes marijuana, but the 1,000,000 in jail for harmless nonviolent crimes, the millions with HIV, the homeless populations, my military veterans and who else. Again must be put on hold, so we can focus on this NAZI/ Harry Potter bullshit again. I tell you what. Legalize marijuana and pass my wonderful cures through the FDA and maybe within this bag of treats, I might find a cure to Zika. Or you can cure it. Or this will be the coldest winter in South Florida history. I can control the weather. That's my deal. I don't pay extortion.
