A Sprung Messes * [Hollywood news is "Beyonce" Shops at Macys not Nicki in Stripes * Clubs

I guess we will keep Zula out of media and all I have to know is she looks like me. Now Naye reminds me of Alicia, my deep voice but Alicia can sing a higher octave. Code: on the song "Hello", I could really reach those notes with very little tweak. I could reach almost 3 octaves on a good microphone with amplification. Then on "DUI Try" meaning THE case of Frank Paul Jones - v - Gambino, I can really sing at the lowered octave. I am blessed to have such beautiful children and look at my Army picture in uniform taken in Germany in 1983-84. She Beyonce' was born 21 Sep 81, I think I left Aven Park, FL to go back into the Army about 17 Sep 81. Look at my picture and her, she looks just like me, just she is pretty and I was handsome. Feminine and Masculine.
